

DO YOU HAVE THAT NASTY LOOKING

“RING AROUND THE POOL”

CAUSED BY CALCIUM DEPOSITS AND BUILD UP? HAVE YOU TRIED TO GET RID OF IT BY SCRUBBING AND SCRAPING BUT JUST CAN'T GET IT OFF? **DON'T RETILE**

SODA BLAST EXPRESS

CAN HELP YOU GO FROM:

THIS

TO

THIS

With our Epsom salt formula we can clean your pool tile in one day in most cases and not affect the Ph of your pool water. Epsom salt is soft (3.5 hardness on the Mohs scale) and will not damage ceramic and glass tiles (6.5 hardness on the Mohs scale) the way sand and glass bead blasting will.

- Soda Blast Express does not use any: **Harsh chemicals like Muriatic acid.**
- Soda Blast Express does not use any: **Destructive abrasives like glass beads or sand**
- Soda Blast Express does not use high pressure water system.
- Our process doesn't require the draining of your pool saving 10,000 plus gal of water.
- Our product is water soluble, non toxic, safe to use around children's play areas, pets and plants.
- In most cases the process takes 1 day to complete.
